Handmade products

Nika Arts is a family run business founded in 2016 in the city of Cortona, Tuscany, by Pjeter Nika who enlarged his last activity called “Cortona Ferro”. His twenty-years experience as a blacksmith allowed Pjeter to undertake a new activity to enhance manual labor and the uniqueness of the product transforming it into art.

Our products range from jewellery to indoor and outdoor, for homes, restaurants, hotels, etc. The distinctive feature of Nika Arts is the recurrent use of local materials like tuscan olive wood accompanied with copper, stainless steel, brass, and so on. The main working techniques such as hand forging, turning and milling make every piece unique.

Our business also seeks to minimize the waste by using and recycling all the remains of the products. For example a lamp is the result of a remain of the process of a table making; a table and its chairs are made out of wine barrels and welded mesh, which you can see in the outdoor section and so on.

The product is entirely made by hand in such a way to make it as simple and functional as possible.

### **Pjeter Nika**

Pjeter graduated from the Studio Marubi Photography Academy of Albania in 1989 and began his career as a professional photographer soon after with a special focus on nature, landscapes and historical settings. Pjeter went on to found Olivewood Arts in 2013, where he produced crafts in olive wood and iron. In 2016, Pjeter founded Nika Arts s.r.l., where he designs and creates interior and exterior furniture made from recycled and reclaimed woods and forged iron and steel.
